

Ashwini Bigha

Frontend Engineer | React.js | MERN Stack

Noida, Uttar Pradesh, India | +91 8435044037 | ashwinibigha@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience building scalable React.js and MERN applications. Skilled in developing responsive user interfaces, integrating REST APIs, implementing secure authentication, and deploying full-stack applications. Strong foundation in reusable component architecture, performance optimization, and Agile development. Experienced in leveraging AI-assisted development tools to improve productivity while maintaining high engineering standards.

TECHNICAL SKILLS

Languages JavaScript (ES6+), HTML5, CSS3

Frontend React.js, Redux Toolkit, Axios, Tailwind CSS, Material UI, Bootstrap, React Router

Backend Node.js, Express.js, REST APIs

Database MongoDB, MySQL

Tools Git, GitHub, Vite, VS Code, Postman, PDF.js, GSAP

Deployment Vercel, Render, MongoDB Atlas

Concepts Responsive Design, Reusable Components, Lazy Loading, Code Splitting, Memoization

PROFESSIONAL EXPERIENCE

Frontend Developer

June 2024 – Present

Nine A Business Connect Pvt. Ltd.

Noida, India

- Engineered scalable enterprise web applications using React.js, Tailwind CSS, Redux, and modern frontend architecture to deliver responsive business solutions.
- Developed reusable UI components that improved maintainability, accelerated feature development, and ensured a consistent user experience across multiple business modules.
- Integrated secure RESTful APIs for employee management, attendance, leave, payroll, dashboards, task tracking, and ticket management.
- Implement JWT authentication, role-based authorization, protected routes, and secure client-server communication.
- Optimize frontend performance through lazy loading, component reusability, efficient state management, memoization, and responsive UI development.
- Delivered production-ready features, resolved application issues, and collaborated with cross-functional teams to continuously improve software quality and stability.

Software Developer Trainee

Feb 2024 – Apr 2024

Bitsquad Technologies

Indore, India

- Developed an Asset Management System using Microsoft Power Apps Canvas.
- Automated business workflows using Microsoft Power Automate.
- Worked with Dataverse and SharePoint as backend data sources.
- Designed interactive dashboards using Microsoft Power BI for business reporting.

FEATURED PROJECTS

HRMS-Pro (Enterprise HRMS)

[GitHub](#) | [Live](#)

React.js • Node.js • Express.js • MongoDB • JWT • Tailwind CSS

- Architected and developed a production-ready full-stack Human Resource Management System (HRMS) using the MERN stack, supporting secure authentication and role-based access for Admin and Employees.
- Implemented responsive dashboards with role-based access control for Admin and Employee portals, improving workflow efficiency and overall user experience.
- Designed and implemented core HR modules including Employee Management, Attendance Tracking, Leave Management, Payroll, Task Management, Holiday Calendar, Helpdesk Ticketing, and Interactive Dashboards.
- Developed secure RESTful APIs with Express.js and MongoDB Atlas, implementing JWT authentication, authorization middleware, and CRUD operations for enterprise workflows.
- Deployed the application using Vercel (Frontend), Render (Backend), and MongoDB Atlas as the production database.

Intelligent Document Converter (IDC)

React.js • JavaScript • PDF.js

- Developed an intelligent document processing platform enabling keyword search, advanced filtering, document editing, annotations, commenting, and PDF management.
- Integrated PDF.js to deliver interactive document viewing and editing capabilities for enterprise document workflows.
- Implemented OTP-based authentication and secure document access mechanisms for improved user security.

EDUCATION

Master of Technology (M.Tech) – Computer Science

Indore, India

Devi Ahilya Vishwavidyalaya (DAVV)

2023

Master of Science (M.Sc.) - Computer Science

Indore, India

Devi Ahilya Vishwavidyalaya (DAVV)

2021

Bachelor of Science (B.Sc.) - Computer Science

Indore, India

Devi Ahilya Vishwavidyalaya (DAVV)

2018

ACHIEVEMENTS

- Awarded the prestigious **Ramanujan Gold Medal** by the Hon'ble President of India, Smt. Droupadi Murmu, for securing the highest rank in Master of Technology (Computer Science).
